

# Abhishek Kuri

FRONT END DEVELOPER

# **CAREER OBJECTIVE**

Knowledgeable Front End Developer, adept at creating successful websites that meet customer needs.

Specialized in collaborating with banking customers to gather requirements, produce plans and improve designs for usability and functionality.

Fully proficient in implementing mission-critical and complex front-end applications in JavaScript(ES6), VueJs, HTML and CSS.

Background includes designing interactive & user friendly websites in Agile/DevOps environments with best practices of TDD.

Highly effective at developing and standardizing designs according to company brand and objectives. Ready to bring 5 years of related experience to a growth-oriented team along with application production support expertise.

Exceptional team player with an analytical approach to developing useful solutions. Enthusiastic coder having experience in accepting challenges in other areas such as Java8(Spring boot) REST API development, Azure migration, DevOps transformation at the current organization.

# PROFESSIONAL EXPERIENCE

## Senior Front End Developer

Tata Consultancy Services - ABN AMRO, Amsterdam/Mumbai | October 2018 - Present

## Domain: Enterprise Data Quality & Retail Banking

- Together with my team(s), Developed / Tested / Deployed / Supported multiple Intranet based portal applications and several Enterprise REST APIs.
- As a lead front-end developer, closely collaborate with UX Designers to design the applications using Figma & Adobe XD with the suitable solutions.
- Helping in creating a standard design system, with as much as possible reusable FE components.
- Working in Agile-driven environment to effectively maintain project timelines and utilize available resources.
- Creating FE Portals/Applications for bank employees to view/manipulate the
  data of an organization/individual from multiple sources(Internal & External)
  on the basis of certain user inputs. The data would be populated via JSON
  from REST APIs.
- Worked in a critical compliance project, governed by European Central bank,
   "Definition of Default" with strict deadline. Appreciated by ABN AMRO CxO leaders.
- Connected the front-end Vuejs applications, developed in Javascript(ES6), with Java Spring boot REST APIs.
- Styled the applications with custom CSS using SASS and Bootstrap frameworks.
- Created several worth noting functionalities such as Single Sign On, Page loader, Pagination, User input forms, Routing, Page printing, Datepicker,

# **RELEVANT SKILLS**

**HTML** 

CSS, SaSS, Bootstrap

JavaScript, ES6

VueJS, Vuex

Test Driven Development(TDD)

Figma, Adobe XD

Java8, Spring boot

**REST API** 

CICD

Azure

DevOps, Agile, Scrum, SAFe

**Application Production Support** 

- Custom Modals etc. Using external libraries in applications such as Vuex, Vue Router, Axios, Moment, Printd, Vue-datepicker, Vue-paginate etc.
- Following peer review process for application development without any violation with regards to coding standards & security guidelines defined by ABN AMRO CoE using CICD tools Sonarqube, Nexus lifecycle and Fortify.
- Introduced Test Driven Development(TDD) in day to day work.
- Maintaining 65% Unit Test coverage of applications using Jest, Vue Test Utils that reduced testing efforts by 93%.
- Implemented Snapshot testing in applications.
- Implemented E2E testing using Cypress frameworks.
- Collaborate with stakeholders during development processes to confirm creative proposals in a frequent manner.
- Created automated functional test suites using Postman(For APIs).
- Created automated performance/load test suites using Jmeter.
- Only full-stack developer, with Java as secondary technology, in a 7
  members team to lead the journey of DevOps with the migration of
  components from On-premise IBM infra to Azure cloud.
- Planned and engineered RESTful web services to manipulate dynamic datasets.
- Trained and supervised team members for ongoing projects.
- Created complete end to end CICD Hands-On Content with a sample web application for training in Java. It was a step for ABN AMRO, closer towards DevOps goal.
- As a part of FE CoE guild, supporting & consulting multiple development teams and conducting various trainings/knowledge sharing sessions.
- Part of teams for ideation, designing & development of multiple front-end POCs.

#### Junior Web Developer

Tata Consultancy Services, Chennai | February 2017 – September 2018

#### Client: US Retailer, International Airlines Group, TCS Internal

- Together with my team, Created a survey application for TCS employee satisfaction in AngularJS.
- Developed several web applications working in Scrum framework as part of TCS internal Agile teams.
- Part of teams for ideation, designing & development of multiple POCs using ReactJS/AngularJS and Java(Spring boot)/Python(Django) REST, for several clients.

## Other Achievements

- Always enthusiastic in sharing the knowledge. Trained more than 150 new joiners of TCS in JavaScript(ES6) and VueJS for clients.
- Participated in various hackathons and performed roles of Scrum to gather business requirements and prioritize the same as per team capabilities to deliver user consumable products. Activities were done in small Sprints of 3 Days.
- Created a fully automated Build pipeline for Java(Spring boot) using AWS and Docker eliminating 80% of manual work.
- Involvement in all phases of the SDLC from Requirement gathering to Production Support.

# **Tools**

Jest, Vue Test Utils, Cypress, JUnit, Babel, Webpack, Jenkins, Git, Maven, Sonarqube, Fortify, Nexus Lifecycle, Jacoco, Nexus Repository Manager, Jira, XLRelease, XLDeploy, Azure, Jmeter, Postman

## Certifications

## **EDUCATION**

College of Technology and Engineering, Udaipur | June 2017 Bachelor of Technology, Computer Science & Engineering

### **Hobbies**

Cooking, Video Editing, Solo
Backpacking, Reading, Writing,
Watching/Reading Football(Soccer) &
related news, Learning music theory.
